

Presented for the
Student Life Endowment Fund

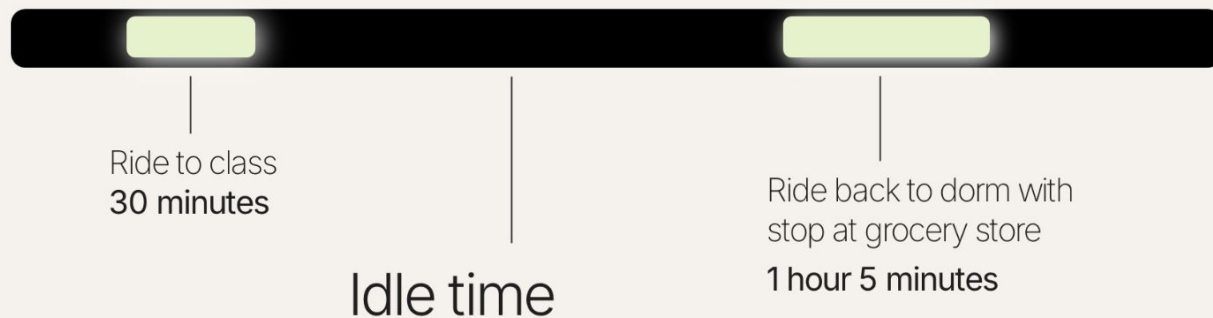

Accessible, Sustainable Mobility for All.

8 million+

students own micromobility devices (NACTO).

90-95% of the day

The biggest
mobility network
ever.

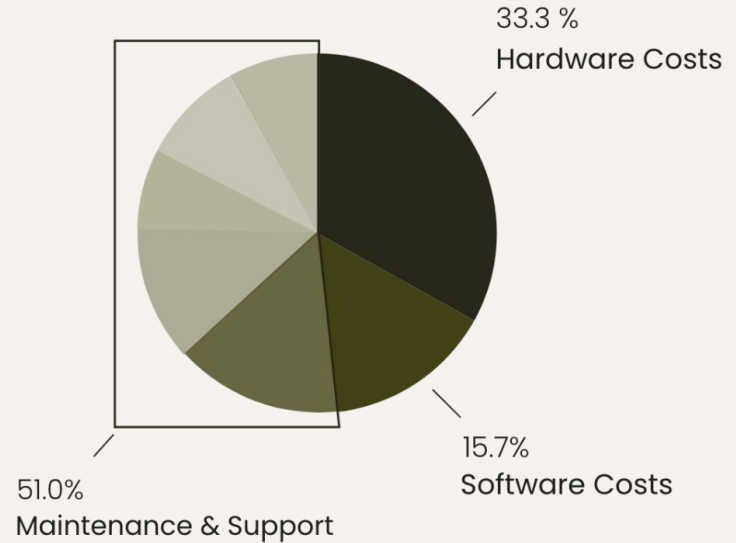

Traditional Scooter-Sharing

Models similar to that of Neuron Mobility

1. **High Operational Costs**
Warehousing, maintenance & fleet management

2. **Limited Access**
Unavailable in underserved areas

3. **Low Personal Ownership**
Individuals don't own their own devices

1.

Onboarding

Owners bring to local business for tagging.

United Mobility

2.

Get Ready @ CMH

Operator prepares vehicle and provides custom QR code.

(Enjoy the ride).

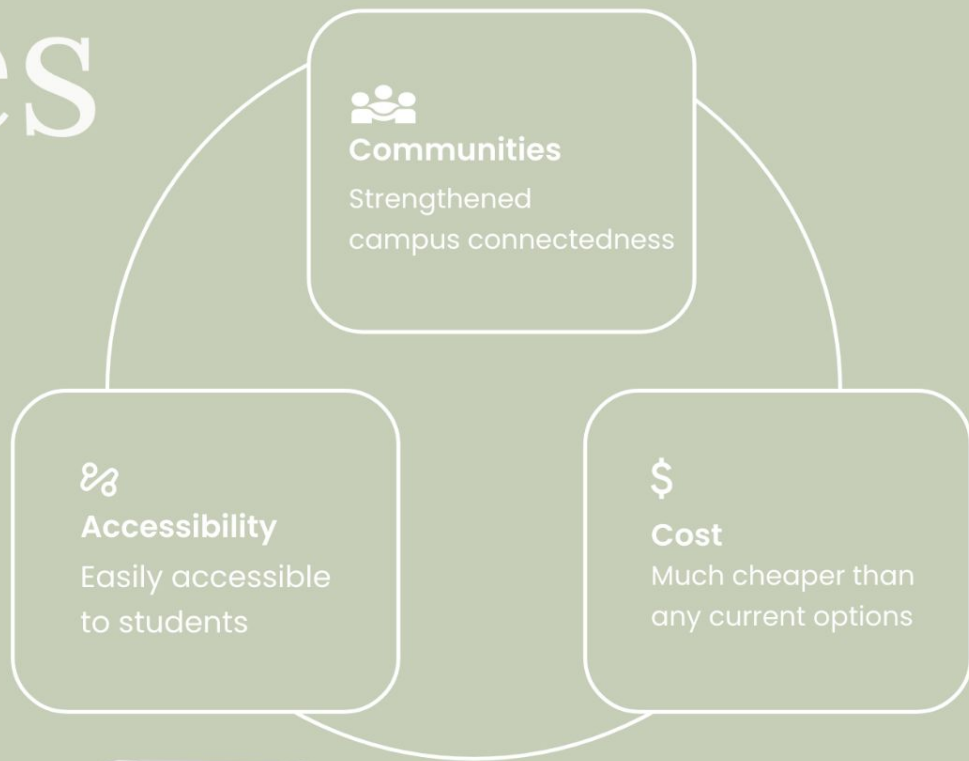

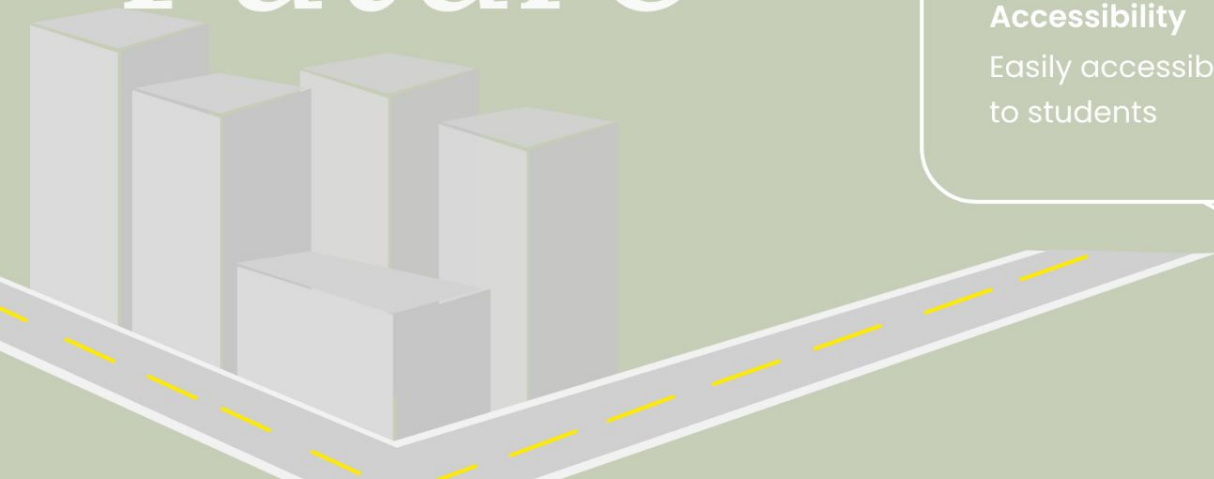

3.
